

## PRODUCT DETAILS

Retinol 1.0 is ideal for problematic and sun-damaged skin that has been pre-conditioned with the use of Retinol 0.5. Formulated with the highest concentration of 1.0% pure retinol, this night cream is enhanced with the latest stabilization and delivery technologies to ensure maximum efficacy and stability. Retinol 1.0 is proven to diminish the appearance of fine lines, wrinkles, and skin discoloration while minimizing breakouts and the appearance of pores.

- Helps reduce the appearance of fine lines, skin discoloration, blemishes, and blotchiness
- Formulated to minimize irritation commonly associated with the use of retinol creams
- Specialized packaging preserves optimal retinol stability
- Will not clog pores
- Non-comedogenic; ideal for most skin types
- Due to the high concentration of retinol, please consult your physician.
